

ONE PLATFORM · FULL-CIRCLE CARE GAP CLOSURE

The performance engine for Health Plans.

Surface every care gap, close it with automated workflows, and prove the return — **one closed-loop platform** for Star Ratings, HEDIS, cost-of-care, and any performance measure that matters.

Projected 2026 · proven model

One platform, **one closed loop** — find it, fix it, prove it.

FULL-CIRCLE SOLUTION

01 · IDENTIFY

Find every gap

One engine finds every care gap — Star Ratings, HEDIS, cost-of-care, and beyond.

02 · ACT

Close it automatically

Automated workflows close gaps at scale — fully automated, or hybrid when clinicians weigh in.

03 · MONITOR

Prove the return

Live outcomes and ROI on one audit surface — clinical wins become defensible dollars.

OUTCOMES PER 100,000 MEMBERS — per year · single anchor health plan, 2026

\$2.71M

Total savings

27,830

Care gaps successfully closed

7,322

Clinical hours returned to teams

80,436

Automated actions taken

QUALITY LIFTS

+2.5–7.1%

HEDIS measure improvement in a single year

SCALABLE

One engine, every line of business

Each new campaign reuses the same identification engine, automation rails, and audit surface — so **unit economics improve as you grow**, with no matching headcount.

CUSTOMIZABLE

Configured to each team's workflow

Fully automated for high-volume closure, hybrid where clinicians stay in the loop. **Same platform, configured to each department's workflow.**
